

PRODUCT INFORMATION.....

S 200

One of the most attractively designed Shredders.
Small office series: 1-5 users suggested capacity.

roto®

S 200 Series

Particularly to use with an exceptionally large bin capacity of 38 litres.

Choose from 4mm fine Strips or 4x28mm Security Cross-Cut particles. The minimized noise level has given this model the nickname of the "Whispering Machine" making it a popular member of any office.

An active light barrier turns the machine On/Off automatically and the waste bin can be removed and emptied without lifting the cutting head to avoid spillage.
