Cardboard shredders

Edward

the only one with Hepa
dust extractors!

PICTURE: EDWARD 400

WATCH THE VIDEO

Klindex® is pleased to introduce the new range of cardboard shredder series **EDWARD**: a professional line of industrial, ecological, economic and compact shredders.

Enough useless waste and improvised packaging! **EDWARD** frees space in the warehouse by transforming the cartons into cardboard elastic mesh perfect for packing.

WHY CHOOSE EDWARD

- Transform used cardboard into practical packaging material without wasting time or money!
- Free warehouse space taken up by used cardboard or packaging materials.
- Eliminate the disposal costs of used cardboard.
- Ecological, space-saving and economical.

TECHNICAL ADVANTAGES:

- Motor designed to last.
- Resistant steel blades even for small metal parts.
- All models are fitted with a dust extractor connection.
- All models are transportable on wheels (optional).
- Simple and practical control panel.
- Sturdy structure entirely in steel and sheet metal.
- Lateral opening of the cutting outlet that allows cardboard wider than 1 metre to be inserted.

3 cutting styles!

- › Elastic net
- › Strips
- › Chips

Edward cardboard-shredders transform used cardboard into practical and effective packaging material without wasting time or money!

- The NET version convert the cardboards in a shock absorbing and flexible netting the best solution to replace plastic packing peanuts, bubble wrap and packaging air bags
- The CHIP version is a special cardboard converter to replace plastic peanuts, Polystyrene chips, the best way for packing delicate items.
- The STRIP version shreds your cardboard waste into (long) strips, the best way for special packaging applications, like for medical products also ideal, to replace the straw for animal bedding.

Cardboard Shredder Edward

Unique in the world with 3 cutting styles!
Choose the finish that suits your packaging:
Elastic net, strips or chips!

Cardboard Shredder

Edward

the only ones with Hepa
extractor to collect dust.

WATCH THE VIDEO

All Edward models are designed for connection to dust extraction systems.

Thanks to our dedicated vacuum cleaners, the dust will be extracted directly from the cutting chamber and conveyed to the bin, preventing it from volatilizing into the air.

Junior 303P

Tank: 62 l.

Recommended for: Edward 500 / 700

Why our cardboard shredders are better

Long lasting steel blades.

Special gears for hard working cycles.

Monolithic body structure.

12m/minute high cutting speed.

Bearings for high radial loads.

Heavy overall machine weight for professional applications.

Wheels equipped for easy moving.

Vacuum ready.

Blades checking window.

Scratch proof powder coating.

Anti wear treated.

Coriander version available , chop the cardboard into small sized corianders.

Simple and practical to use with two-position switch: on / off.

Heavy duty body and stainless steel carter suitable for intensive use in freight forwarding departments.

Complies with all relevant national and international safety standards.

Over-sized engine for optimum reliability.
