

JBF HD 15/40

Important Features

- Three Phase Power supply for operation on CEKON CEE 32A power outlet
- Slim design to fit through standard office doors
- Compliant with DIN 66399 security level H4
- Processes up to 8 to 10 units of 3.5" standard HDD's consecutively. Cannot handle 3.5" enterprise HDD's.
- Handles other data media like CD's, DVD's, magnet tapes, PDA's, thumb drives,...

Intended Range of Application

This machine was designed for operation directly in the IT-department of companies or banks, where media are shredded directly when put out of service in small batches of up to 10 units. With its relatively small footprint it matches into the office surrounding and provides for sufficient performance for continuous disposal of outdated or damaged HDD's and other data media. A three-phase outlet CEKON CEE 32A is required for operation.

Technical Data

Power supply	V / Hz	400V / 50Hz / 3Ph (other voltages and frequencies available upon request)
Motor power	kW	3.0
Cutting zone	mm	150 x 400
Knife width	mm	18.5
Dimensions	mm	930 x 760, 1,650 high
Weight	kg	540
Collecting box volume	litre	120
