

JBF HD 15/40 Office

Important Features

- Available in Three-Phase Power Supply version for operation on a CEKON CEE 32A outlet
- At surcharge available in Single-Phase Power Supply version for operation on any standard power outlet with inverter drive
- Slim design to fit through standard office doors
- Compliant with DIN 66399 security level H3 (single-phase version) or H4 (three-phase-version)
- Processes up to 60 HDD's per hour. Cannot handle 3.5" enterprise HDD's.
- Handles other data media like CD's, DVD's, magnet tapes, PDA's, thumb drives,...

Intended Range of Application

This machine was designed for operation directly in the IT-department of companies or banks. With its relatively small footprint and the optional single-phase-supply it matches into the office surrounding and provides for sufficient performance for continuous disposal of outdated or damaged HDD's and other data media.

Technical data three-phase-version

Power supply	V / Hz	400V / 50Hz / 3Ph (other voltages available upon request)
Motor performance	kW	3.0
Knife width	mm	18.5

Technical data single-phase-version

Power supply	V / Hz	230V / 50Hz / 1Ph (other voltages upon request)
Motor performance	kW	1.5
Knife width	mm	32.5

General technical data

Cutting zone	mm	150 x 400
Dimensions	mm	1,155 x 700, 1,195 high
Weight	kg	550
Collecting box volume	litre	88
