MAIN FEATURES

High security shredder suitable to shred "Classified" and "Top Secret" documents. Touch screen shredder, all controls are activated by simply touching the panel. Equipped with powerful 24-hour continuous duty motor without overheating and duty cycles, carbon hardened cutting knives. Kobra 310 TS HD HS-6 can shred a sheet of paper in about 20.000 microchips which become absolutely unreadable even if special electronic optical microscopes are used. Energy Smart System and automatic disconnection from the mains for maximum power saving, EPC System displays real-time shredding load and helps the operator to optimize shredding efficiency. Kobra 310 TS line shredders can shred transparent material too: keep your finger for 5 seconds on the Forward control and the machine works continuously for 30 seconds.
