OPTION FOR KOBRA SSD AND KOBRA HDD

*Kobra LMS is an option for*

**KOBRA SSD**  
Solid State Drive High Security Disintegrator

*Kobra LMS is an option for*

**KOBRA HDD**  
Hard Disk Drive Shredder

Scan the barcode and automatically store into a computer the serial number of the device being shredded, keeping track of day and hour.

## MAIN FEATURES

### QUICK AND PRACTICAL SYSTEM TO STORE IN A FILE THE SERIAL NUMBER OF DEVICES TO BE SHREDDED

After the barcode reader has been connected and the software has been started, it is possible to quickly record the serial number of the devices to be shredded by the barcode reader.

**The system will instantly match each serial number with the date and time for each serial number entered.**

It is also possible to manually enter the serial number of the devices to be shredded and the system will automatically match each serial number with the date and time of insertion.
