

Optional Feed Conveyor

for JBF HD 38/50 and HD 35/50 FLASH

Optional Feed Conveyor

for JBF HD 38/50 and HD 35/50 FLASH

- Automated feeding of approx. 15 data media
- The operator puts the media onto the conveyor and starts the machine. Then he can leave the machine and focus on other tasks
- Feeding speed is adjustable via a timer to adapt it to the screen which is actually mounted in the shredder
- Easy adjustment of the speed via “↓” and “↑” buttons besides the timer’s LCD display
- Mobile on castors
- Power supply via outlet at the shredder
- Parallel manual feeding at the shredder possible
