

paper shredding machines JBF-Data Cut

high performance shredder for professional applications in the field of paper shredding

- paper single sheet
- complete file folders incl. the metal closing mechanism
- books
- complete packs of continuous-paper-lists

Complete machine line, existing of:

- infeeding conveyor, adapted to the existing customer situation
- pre-shredder JBF 38/54, connected load according to customer needs
- fine-shredder for a defined shredding of the data protected material according to DIN 32 757-1
- exit conveyor out of the machine frame for transportation of the shredded material
- connections and control integration of suction devices, conveyors and press containers are possible

- DCM-machines with **Magnetic metal separator** mounted under the pre-shredder

technical datas of Data Cut DC / Data Cut DCM-shredding machines

	DC/DCM 600	DC/DCM 800	DC/DCM 1000	DC/DCM 2000
capacity approx. *)	650 / 600 kg / h	850 kg / h	1000 kg / h	2100 kg / h
connected load of pre-shredder (kW)	7,5	9,2	2 x 7,5	2 x 9,2 (alt. 2 x 11)
connected load of fine shredder (kW)	9,2	9,2	9,2	2 x 9,2
mesasurements (length x width x height)				
DC - inline-version (mm)	5400 x 1150 x 2550	5400 x 1150 x 2550	5850 x 1150 x 2850	4360 x 1810 x 3090
DCM - inline-version (mm)	6350 x 1150 x 2900	6350 x 1150 x 2900	7410 x 1150 x 3110	4360 x 1810 x 3090 **)
weight (kg)				
DC incl. infeed conveyor	2200	2200	2600	4500
DCM incl. infeed conveyor	2500	2500	2900	4500

*) The specifications of the capacity are based on our experience and depends on the type of material, the material dimensions, the feeding of the material into the machine as well as the technical layout of the machine

**) measurements without conveyor
